Dear Mother

This will serve to acknowledge receipt of the money order which found me in a pretty ^{tight} fix and it ~~so~~ saved my life. I am sure sorry it is such a hard matter to obtain money but feel that I have derived the value of it in knowledge and with interest also. What I have learned can not be taken from me. This morning I received a letter from Etta and she is surely going to do some wonderful things such as buying Stutz racers and Hudson Super six with her increase

You said in your letter you were sending some money Sunday. Had you to date it has not arrived

The overall plan is beginning to have some effect on the Proprietors here for the "Town Robber" or the University shop are about to close its doors due to lack of business. It serves them right for they sure do rob the Students 20⁰⁰ for a pair of low shoes and 75⁰⁰ for a suit. My board bill has been decreased 1.50 per month the first time in the history of Charlotte with that a price was ever reduced.

This note is being written under difficulties as I am in the Post office standing up. Don't forget to see about that money you mailed Sunday?

Love Ed

will write soon again.
