

Mrs M. H. Carr

Ryder Lane & Ave R.
Brooklyn, N.Y.

Jan 23 1920

Dear Mother

Since I have been here it has rained continually and it still is. There is ice all over the street, trees, houses etc. and they call it Sunny South. ha-ha.

Well Moth I have seen very little of the town as a fellow certainly does not enjoy walking this sort of weather but before I leave I do not expect there will be a place left unvisited. I can tell you very little of the college yet as ~~the~~ to morrow will be my first day.

I imagine it is quite hard judging from the books I have seen. I have been fortunate in getting a room with one of the fellows who will be in my class and he is a fine chap

I do believe that I will be able to catch up and continue the work but if I cannot we will not lose hope.

As I said before I will do my best to make this term. I have been busy reading ancient history and have learned quite a little in a short time.

Please rest assured mother that my time is being used to advantage and that while here will continue to do all in my power to get through.

Remember me to all. With love

Sincerely
Edward
