Dear Mother,

This will serve to acknowledge both checks and also to let you know that I am well and happy. The checks written upon the paper is ok so don't worry about that. The marks have been slow coming in and I have not as yet heard from all of them but I'm sure I'll not get Riched aunt which is some consolation. We played two games of ball so far winning one and losing the other. This year's team is punk and I don't think Va will make much of a

showing. It is so warm here now that I am all sun burnt and look as tho I'd spent a month at the sea shore.

I hope Notts birthday has found her finger well and that she is for a change enjoying real excellent health. My compliments to her upon her 28th birthday.

Well mother I guess this will be a hard month for you to pull thru and I hope you will get some help but doubt it, so it will be as usual up to you to bear the burden.

I'm writing this before class
and must make it snappy.

Everything is fine and I do hope
you get some little recreation
now and again. Will write
soon again

my love
Ed.
